

YULEX[®] NATURAL RUBBER BALLOONS

Shorten development cycles with TechDevice Yulex Natural Rubber Balloons.

Quantities up to 50 pieces are stocked with:

- 2.25" lengths
- wall thickness of .005" - .008" or .008" - .011"
- inside diameters made to fit standard French sizes
- one round closed end

Items in stock can ship either same or next business day. If an item is not on the shelf, your sales person can provide you with a lead time for the quantity you need.

TechDevice manufactures custom balloon sizes and shapes. Ask your sales person for details or provide a specification for us to review.

.184"/14 FR	40124-12	40124-25
.197"/15 FR	40124-13	40124-26

If you would like a custom length for your balloon sleeve, use the instructions below to create a part number, or submit your product specification to us for review.

How to create a part number for the custom balloon length you need:

- Step 1: Select a shaft size from 3 French - 15 French
- Step 2: Select a wall thickness .005" - .008" (5) or .008" - .011" (8).
- Step 3: Select a length between .250" and 2". Lengths are +/- .040".
- Step 4: Select a material: (Y) Yulex: All-natural rubber, made in the USA with outstanding qualities.
Does not contain the same proteins found in traditional Hevea Latex.
- Step 5: Select O for both ends open like a sleeve, or C for one closed end.

Sample Part Number: 14 FR - (5) - 1.25" - (Y)
 Shaft Size Wall Length Material

- All balloons are shipped bulk non-sterile
- Lead time may vary – check at time of order
